

Tentative Subdivision Map 19-03 Conditions of Approval and Mitigation Measures

Conditions of Approval

General

1. Approval of Tentative Map (TSM) 19-03 may become null and void in the event that development is not completed in accordance with all the conditions and requirements imposed on this tentative parcel map, the Zoning Ordinance, the most recently City-adopted Uniform Building Code, and all Public Works Standards and Specifications. The City shall not assume responsibility for any deletions or omissions resulting from the permit review process or for additions or alterations to construction plan not specifically submitted and reviewed and approved pursuant to this special permit or subsequent amendments or revisions.
2. The applicant, operator, and/or property owner ("Applicant" herein) is required to enter into an agreement with the City agreeing to indemnify, defend, and hold harmless the City of Yuba City, its officers, attorneys, agents, employees, departments, commissioners, authorized volunteers, and boards ("City" herein) against any and all liability, claims, actions, causes of action or demands whatsoever against them, or any of them, before administrative or judicial tribunals of any kind whatsoever, in any way arising from, the terms and provisions of this land use approval, including without limitation any California Environmental Quality Act (CEQA) approval or any related development approvals or conditions whether imposed by the City, or not, except for City's sole active negligence or willful misconduct. This indemnification condition does not prevent the Applicant from challenging any decision by the City related to this project and the obligations of this condition apply regardless of whether any other permits or entitlements are issued. The land use approval shall not become effective until Applicant executes a "Covenant to Indemnify."
3. The Planning Commission's approval of TSM 19-03 shall not become effective unless and until the City Council approves General Plan Amendment 18-03 and Rezoning 18-02. The effective approval date of this subdivision for purposes of this subdivision map's expiration date, as described in Condition #4 below, shall not be until the effective date of the rezoning.

Expiration and Development Impact Fees

4. Approval of TSM 19-03 shall be null and void without further action if either the project has not been substantially commenced within two years of the approval date of TSM 19-03 or that a request for an extension of time, pursuant to Section 66452.6 and as amended, of the California Subdivision Map Act, has been submitted to the City prior to the map's expiration date.
5. Development Impact Fees. Impact fees shall be paid pursuant to the YCMC.

Planning Division

6. The lot design on the subdivision map shall be designed in conformance with the TSM 19-03, as approved by the Planning Commission.

7. TSM 19-03 shall comply with the Conditions of Approval.
8. Prior to issuance of occupancy permits, all residential lots that abut the neighboring non-residential general plan designations shall be planted with a hedge type plant, as approved by the Development Services Director, along its common property line with the non-residential designated properties.
9. A five-foot wide hedge planting shall be provided along the residential property lines that are in common with the neighboring commercial and light industrial properties. This includes hedge plantings along the northerly property line of Lots 7, 8, 9, 10, and 11, and along the easterly and southerly line of Lot 11.

Public Works Department

General

10. To help contain fugitive dust, construction sites shall be watered down during the construction phase of the project or as directed by the Public Works Department.
11. Paved streets shall be swept frequently (water sweeper with reclaimed water recommended; wet broom) if soil material has been carried onto adjacent paved, public thoroughfares from the project site.
12. The Developer, at their expense, shall be solely responsible for all quality control associated with the project. The quality control shall include, but is not limited to, the following: survey work, potholing existing utilities, all geotechnical testing, soil reports, concrete testing, asphalt testing, and any other required special testing/inspections. The City will only perform necessary testing to insure compliance.
13. Storage of construction material is not allowed in the travel way.
14. The Developer shall prepare and submit improvement plans for the construction of all public improvements including water, sanitary sewer, storm drain facilities, roadway improvements, curbs, gutters, sidewalks, parkway strips, signing, striping and streetlights.

Prior to issuance of Grading Permit

15. The improvement plans for the development of the subject property shall include all measures required to ensure that no drainage runoff resulting from the development of the property flow onto the adjacent residential or agricultural lands or impede the drainage from those properties. The rear yards and/or side yards of the lots that are created by this subdivision that are adjacent to existing residential development shall have the same finish grade elevation as those lots within tolerances as approved by the Public Works Department. If retaining walls are required, they shall be constructed of concrete or masonry block.

Prior to approval of Improvement Plans

16. A Subdivision Agreement outlining any costs (hot tap, connection fee, fair share contribution, etc.) associated with the development shall be accepted by the City prior to recordation of map.

17. The contractor shall obtain an Encroachment Permit from the City prior to performing any work within public rights of way.
18. A tunnel permit from the State Division of Occupational Safety and Health; Mining and Tunneling Unit will be required. A copy of this permit must be supplied to the City prior to approval of the improvement plans.
19. Where an excavation for a trench and/or structure is 5 feet deep or more, the contractor shall conform to O.S.H.A. requirements. The contractor shall provide a copy of the approved O.S.H.A. permit, and shoring details and calculations prepared by California licensed structural engineer to the Public Works Department.
20. Bridge Street shall be widened to a typical half-width (centerline to back of curb). Right-of-way shall be dedicated together with a 12.0-foot PUE behind the right-of-way. Frontage improvements shall include street section, curb, gutter, and a 5.0-foot wide attached sidewalk.
21. Street "A" shall be constructed to a width of 37.0 feet back of curb to back of curb with parking permitted on both sides. Right-of-way shall be dedicated to a width of 38.0 feet together with a 19.5-foot PUE behind the right-of-way. Construction shall include street section, curbs, gutters, 4.0-foot wide detached sidewalk, street trees and street lights, except as otherwise shown on the tentative map and approved by the Public Works Department.
22. The structural section of all road improvements shall be designed using a geotechnical investigation which provides the basement soils R-value and expansion pressure test results. The structural section shall be designed to the following standards:
 - a. Use 3" minimum for residential, 4" minimum for collectors and 5" minimum for arterials, of 'Type A' asphaltic concrete over Class 2 aggregate base (the thickness of the base shall be designed to the R-value of the soil):
 - b. Use a traffic index of 6 for residential streets,
 - c. Use a traffic index of 7 for collector streets,
 - d. Use a traffic index of 10 for arterial streets,A copy of the geotechnical investigation, including R-value, test locations and structural section calculations, shall also be submitted with the first improvement plan check.
23. Striping, pavement markings and traffic signage shall be provided on all streets as necessary and as required by the Public Works Department. Signage restricting parking and red painted curbing shall be installed where appropriate. Speed limit signs shall be installed at locations determined by the Public Works Department.
24. The Developer shall submit to Sutter County a drainage plan for any drainage improvements that utilize County facilities for approval by Sutter County Public Works Director.
25. The Improvement Plans shall show provisions for the placement of centralized mail delivery units in the Public Utility Easement (P.U.E.). Developers will provide a concrete base for placement of the centralized mail delivery unit. Specifications and location of such base shall be determined pursuant to the applicable requirements of the Postal Service and the Yuba City Public Works Department, with due consideration for street light location, traffic safety, security and consumer convenience.

26. As required by Section 8-5.5904(b)(4) of the Zoning Regulations, prior to recordation of the final map, a solid 6.0-foot high masonry block wall shall be constructed along the following locations (as locations are shown on the tentative map dated June 5, 2019):
- a. Along the northerly property line of Lots 7, 8, 9, 10, and 11; and
 - b. Along the easterly and southerly line of Lot 11; and
 - c. Between Lot 11 and Lot 12.
27. A solid 6.0-foot high decorative (as approved by the Development Services Director) masonry block wall with pilasters located no more than 50 feet apart, shall be constructed along the southerly line of Lots 1, 13, 18. At the entrances to the subdivision, the block wall shall be "stepped down" in a decorative manner that is acceptable to the Public Works Director.
28. Required Improvement Plan Notes:
- a. "Any excess materials shall be considered the property of the contractor/owner and shall be disposed of away from the job site in accordance with applicable local, state and federal regulations."
 - b. "During construction, the Contractor shall be responsible for controlling noise, odors, dust and debris to minimize impacts on surrounding properties and roadways. The Contractor shall be responsible for all construction equipment to be equipped with manufacturers approved muffler baffles. Failure to do so may result in the issuance of an order to stop work."
 - c. "If any hazardous waste is encountered during the construction of this project, all work shall be immediately stopped and the Sutter County Environmental Health Department, the Fire Department, the Police Department, and the City Inspector shall be notified immediately. Work shall not proceed until clearance has been issued by all of these agencies."
 - d. "The Contractor(s) shall be required to maintain traffic flow on affected roadways during non-working hours, and to minimize traffic restriction during construction. The Contractor shall be required to follow traffic safety measures in accordance with the CalTrans "Manual of Traffic Safety Controls for Construction and Maintenance Work Zones." The City of Yuba City emergency service providers shall be notified, at least two working days in advance, of proposed construction scheduled by the contractor(s)."
 - e. "Soil shall not be treated with lime or other cementitious material without prior express permission by the Public Works Department."

Prior to acceptance of Public Improvements

29. Prior to paving, the Developer shall vacuum test all manholes to ensure no leakage will occur.
30. Prior to paving, the Developer shall hydroflush, and televise, all storm drain mains and all sewer mains. In addition, prior to the City's acceptance of the subdivision improvements, and at the Public Works Department's discretion, the storm sewer and sewer mains shall be re-hydroflushed.

31. The contractor shall maintain record drawings of the improvements and keep them on site at all times. When the project is complete, the contractor shall deliver a marked set of plans to the Engineer of Record. The Engineer of Record shall update the improvement plans with the record information. Once the changes have been added to the plans, the Engineer of Record shall submit both an electronic copy (AutoCad version 2010 or newer) and a hard copy to the City. The City will not accept the completion of the improvements until the electronic copy and hard copy have been submitted.

Prior to Final Map Recordation

32. The development shall pay for operations and/or maintenance for police, fire, parks, drainage, and ongoing street maintenance costs. This condition may be satisfied through participation in a Mello-Roos CFD, or by another secure funding mechanism acceptable to the City. The City shall be reimbursed actual costs associated with the formation of, or annexation to, the district.
33. The property shall petition for formation of a Zone of Benefit of the Yuba City Landscaping and Lighting Maintenance District for the purpose of maintaining street trees which are to be planted along all streets, maintaining the street lights, maintaining the landscaping along Bridge Street, and maintaining the masonry walls. The Engineering Division shall be reimbursed actual costs associated with the formation of the district.
34. Three street lights shall be provided along Bridge Street at locations determined by the Public Works Director.
35. Street lights shall be installed along Street "A".
36. All public street lighting shall be dedicated to the City of Yuba City.
37. A public utility easement shall be provided along all streets extending 10.0 feet behind the back of the sidewalk.

Prior to Building Permit

38. The Developer's Superintendent/Representative shall submit three sets of Pacific Gas and Electric approved utility plans showing joint trench locations and distribution lines prior to issuance of first building permit.
39. The applicant shall be required to pay all applicable Sutter County Water Agency connection fees and maintenance and operation fees. Fees are payable at the Sutter County Development Services Counter located at 1130 Civic Center Blvd.
40. The Developer shall enter into an agreement with Sutter County providing the following:
Participation in a zone of benefit, drainage district, agency, service area or any other public entity for the financing of construction and maintenance of a drainage system. In addition to the special assessment district or public entity referred to immediately above, the agreement shall contemplate the imposition by the district or public entity of any legally available fee, assessment or other financing mechanism to facilitate the construction and maintenance of a drainage system.
41. All street lighting shall be energized prior to the issuance of any building permits.

Prior to Certificate of Occupancy

42. The curb, gutter, sidewalk, and lot drainage shall be inspected and approved by the City. Any curb, gutter and sidewalk which is not in accord with City standards or is damaged before or during construction, shall be replaced. All sidewalks along the City right-of-way shall be free of any non-control joint cracking. In addition, any concrete with cracks, chips, blemishes, and spalling greater than an inch in diameter shall be replaced from control joint to control joint.
43. Prior to the issuance of a certificate of occupancy, all reduced pressure backflow preventers shall be tested and a back flow preventer certification performed by an AWWA licensed tester shall be submitted to the Public Works Department.
44. Prior to issuance of any certificate of occupancy, all underground utilities, public improvements, and site improvements, including rough grading, shall be completed.

Mitigation Measures

Cultural Resources Mitigation 1: In the event that previously undetected cultural materials (i.e. prehistoric sites, historic features, isolated artifacts, and features such as concentrations of shell or glass) are discovered during construction, work in the immediate vicinity should immediately cease and be redirected to another area until the Auburn Indian Community of the Auburn Rancheria is re-contacted and allowed the opportunity to consult under AB 52. Further, a qualified archaeologist that meets the Secretary of the Interior's Professional Qualifications Standards in prehistoric or historic archaeology inspects and assesses the find. The City shall consider further recommendations as presented by the professional and implement additional measures as necessary to protect and preserve the particular resource. Such measures may include avoidance, preservation in place, excavation, documentation, curation, data recovery, or other appropriate measures.

Cultural Resources Mitigation 2: If human remains are uncovered, or in any other case where human remains are discovered, the Sutter County Coroner, as appropriate, is to be notified to arrange their proper treatment and disposition. If the remains are identified – on the basis of archaeological context, age, cultural associations, or biological traits – as those of a Native American, California Health and Safety Code 7050.5 and Public Resource Code 5097.98 require that the coroner notify the NAHC within 24 hour of discovery. The NAHC will then notify the most likely descendant, who may recommend treatment of the remains.

Cultural Resources Mitigation 3: Should artifacts or unusual amounts of bone or shell be uncovered during demolition or construction activity, all work shall be stopped and a qualified archeologist shall be contacted for on-site consultation. Avoidance measures or appropriate mitigation shall be completed according to CEQA guidelines. The State Office of Historic Preservation has issued recommendations for the preparation of Archeological Resource Management Reports, which shall be used for guidelines. If a bone appears to be human, California law mandates that the Sutter County Coroner and the Native American Heritage Commission be contacted.

Greenhouse Gas Mitigation Measure 1: The site grading process shall comply with the GHG Reduction Measures provided in the adopted Yuba City Resource Efficiency Plan.

Tribal Cultural Resources Mitigation Measure 1: Worker Awareness Training. The City shall ensure that a Worker Education Program is developed and delivered to train equipment

operators about cultural resources. The program shall be designed to inform workers about: federal and state regulations pertaining to cultural resources and tribal cultural resources; the subsurface indicators of resources that shall require work stoppage; procedures for notifying the City of any occurrences; and enforcement of penalties and repercussions for non-compliance with the program. Worker education training may be provided either in person or as a DVD with a training binder, prepared by a qualified professional archaeologist and reviewed by the City. The United Auburn Indian Community (UAIC) shall be afforded the option of attending the initial training in person or providing a video segment or information for incorporation into the training that appeals to the contractor's need to be respectful of tribal cultural resources and tribal participation in implementing unanticipated discovery protocols. All ground-disturbing equipment operators shall be required to receive the training and sign a form that acknowledges receipt of the training. A copy of the form shall be provided to the City as proof of compliance.

Tribal Cultural Resources Mitigation Measure 2: Avoid and minimize impacts to previously unknown Tribal Cultural Resources. If any cultural resources, such as structural features, unusual amounts of bone or shell, artifacts, human remains, or architectural remains are encountered during the initial inspection or during any subsequent construction activities, work shall be suspended within 100 feet of the find, and the construction supervisor shall immediately notify the City representative. If the find includes human remains, then the City shall immediately notify the Sutter County Coroner and the procedures in Section 7050.5 of the California Health and Safety Code and, if applicable, Section 5097.98 of the Public Resources Code, shall be followed. For resources reasonably associated with Native American cultural and for human remains, the City shall coordinate with any necessary investigation of the discovery with a UAIC tribal representative and a qualified archaeologist approved by the City. As part of the site investigation and resource assessment, the City shall consult with UAIC to develop, document, and implement appropriate management recommendations, should potential impacts to the resources be found by the City to be significant. Nothing in this measure prohibits the City from considering any comments from other culturally-affiliated Native American tribes that volunteer information to the City during its investigation. Possible management recommendations could include documentation, data recovery, or (if deemed feasible by the City) preservation in place. The contractor shall implement any measures deemed by the City staff to be necessary and feasible to avoid, minimize, or mitigate significant effects to the cultural resources, such as the use of a Native American Monitor whenever work is occurring within 100 feet of the discovery of Native American Resources, if deemed appropriate by the City.
