### **Door-to-Door Household Hazardous Waste Collection Program Now Underway**

Yuba and Sutter Counties, CA – A new pilot program for the Door-to-Door Home Collection of Household Hazardous Waste for residents of Yuba and Sutter Counties is now available through March 2013. This pilot program is provided by the Regional Waste Management Authority through a state grant from CalRecycle. The program is operated by Recology Yuba-Sutter.

A limited number of appointments to pick up many household hazardous wastes are available. Priority for participating in this program will be given to senior citizens and persons with disabilities, but any resident may request an appointment. Appointments are scheduled for Mondays and residents must be at home when the waste is picked up. There is no charge for this pilot program.

Residents interested in making use of this program should first make a list of the types and amounts of waste that they have, then call Recology Yuba-Sutter at 743-6933 or just click on the Door-to-Door HHW Program tab at [www.RecologyYubaSutter.com](http://www.RecologyYubaSutter.com) and follow the instructions to start the appointment process.

For more information regarding the types of materials accepted and the pilot home collection program, call Recology Yuba-Sutter at 743-6933 or check on-line at [www.RecologyYubaSutter.com](http://www.RecologyYubaSutter.com).
