

CITY OF YUBA CITY
STAFF REPORT

Date: July 20, 2010
To: Honorable Mayor & Members of the City Council
From: Public Works Department
Presentation By: George L. Musallam, Public Works Director

Summary

Subject: Required Report on Public Health Goal's for the City's Surface Water System.
Recommendation: Conduct a public hearing, accept public comment and approve the Public Health Goal Report.
Fiscal Impact: No fiscal impact.

Background:

Senate Bill (SB) 1307 (Calderone-Sher; effective 1-1-97) added provisions to the California Health and Safety Code which mandate that a Public Health Goal report be prepared every three years and a public hearing be conducted. The attached report provides information to supplement the Annual Water Quality Report which is mailed to every customer each year.

Analysis:

The Public Health Goal Report has been prepared by staff comparing the City's surface water drinking water quality with public health goals adopted by California EPA's Office of Environmental Health Hazard Assessment and with maximum contaminant level goals adopted by the USEPA. No report is necessary for the City's groundwater systems because there are less than 10,000 groundwater service connections. Public health goals and maximum contaminant level goals are not enforceable standards and no action to meet them is mandated.

The surface water system complies with all of the health-based drinking water standards and maximum contaminant levels required by the California Department of Health Services and the USEPA. The report is available for your review at the Public Works Department office.

No additional actions are recommended.

Fiscal Impact:

No fiscal impact.

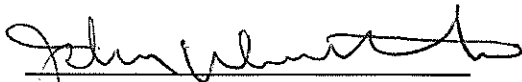

Alternatives:

Do not approve the Public Health Goal Report and provide staff with other direction.

Recommendation:

Conduct a public hearing, accept public comment and approve the Public Health Goal Report.
