# Implementation

- 7/1/21 - Rates Become Effective
  - Rates will be reflected in bill that is mailed in late August and will apply to July consumption

# Questions?

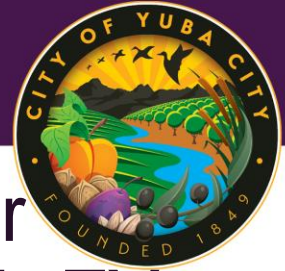

# Background

- 4/5/16- Council adopted the Water and Wastewater Rate Study
  - Proposed adjustments to the City's water and wastewater rates over the next 5 years through FY 20/21
- 6/21/16 – Council adopted Water and Wastewater Ordinances
  - Provides for Council review of rates on an annual basis as part of the fiscal year budget review process, prior to July 1 implementation of the increases for each year
  - Council retains authority to set rates by resolution

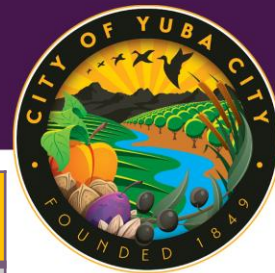

# Background

- Even though the Water and Wastewater Rate Studies only contemplated through FY 20/21, since Council adopted rates less than those approved through the Proposition 218 process, there is still the ability to increase rates beyond FY 20/21, provided that the rates do not exceed those approved through the Proposition 218 process.
