**Jesse Alexander, Fire Chief**

# Records Management Software (RMS)

## History:

- FIREHOUSE is YCFD's current Records Management Software (RMS)

- Last year, FIREHOUSE was purchased by ESO

- In October 2021, YCFD was formally notified that FIREHOUSE will sunset on December 31,2022, and will no longer be supported in 2023.

# What exactly is an RMS?

➢ Collection of software designed to enhance fire department operations, data collection, and services.

➢ Meets legal requirements by providing modules for documenting Incidents, Personnel Management, Scheduling, Properties & Inspections, Activities, Permits, and more.
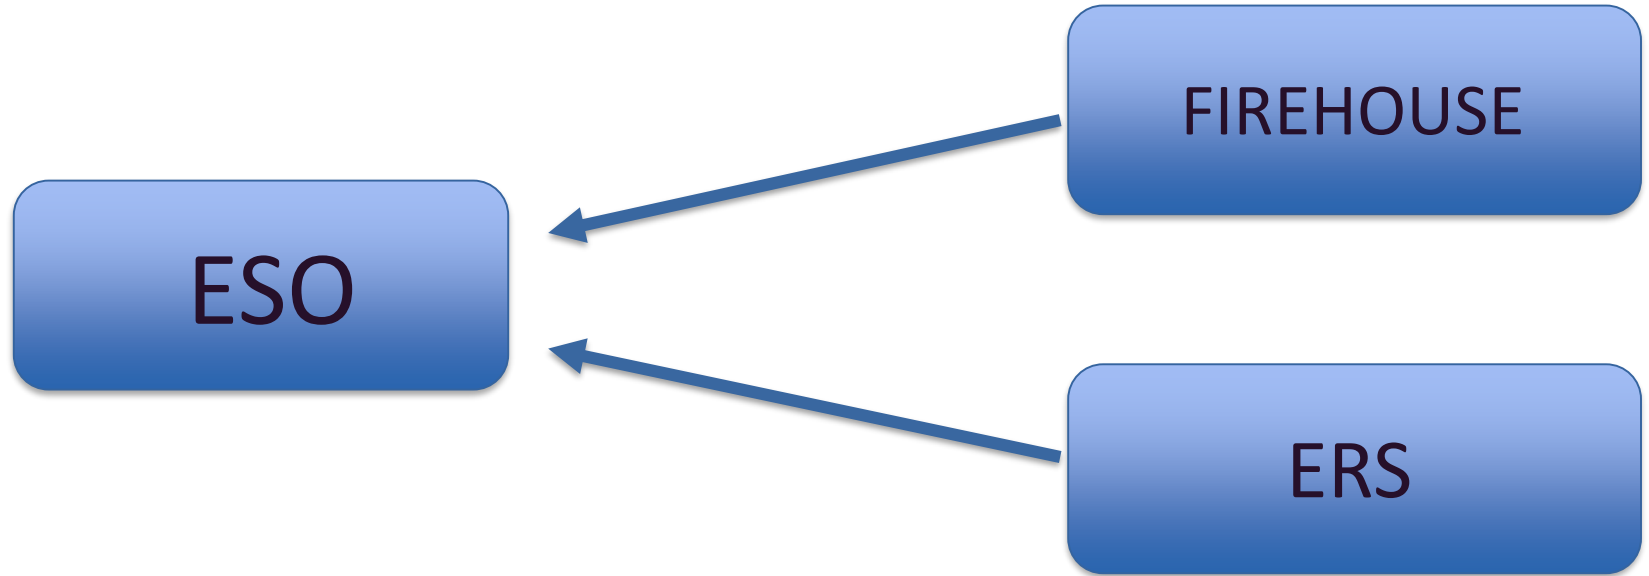

# Role of RMS

## Components of RMS

- Apparatus Time Stamping
- Personnel Time Stamping
- Patient Care Reports
- Incident Action Narratives
- Fire Investigations
- Fire Inspections
- Daily Logs
- Schedular

## Why is it necessary?

- National Fire Incident Reporting System (NFIRS)
- Legal Documents
- Statistical Analysis
- SSV Reporting Requirements
- Criminal Investigations
