

## STATEMENT OF CANDIDATE FOR YUBA CITY COUNCIL

BRAD WESTMORELAND

Occupation: Attorney

Education and Qualifications:

I was born and raised here in Yuba City and am happy to be raising my own family here. I served this community on my way to becoming an Eagle Scout, as a church volunteer, and as a member of the local mental health advisory board. I graduated from Brigham Young University and earned my law degree from the University of Washington School of Law. I currently work as an employment attorney for the State of California.

I am running for Yuba City Council because the city and its residents are facing serious challenges that require a fresh perspective, bold leadership, and the energy to get things done. I will fight to make housing more affordable and put more money back into the pockets of working people and families. I will work to find smart and equitable solutions to the city's homelessness issue. And I will work to attract good-paying jobs, new businesses, and new opportunities to the community.

So if you think it's time for Yuba City to take a bold step into the future, I welcome your support and invite you to visit [www.bradforyubacity.com](http://www.bradforyubacity.com) to learn more about what we can accomplish together.
