

Summer Internship Program 2023 Engineering Intern

Come join the City of Yuba City Public Works Department. The Public Works Department oversees the planning, design, construction, maintenance, and inspection of City road, water, sewer, and storm drainage projects to ensure compliance to current standards and guidelines. The Engineering Intern position will assist in wide range of assignments within the Public Works Department.

Education, Experience, and Licensing Requirements: Must be enrolled in at least six semester units or nine quarter units at an accredited college or university. A focus in engineering or a related field is preferred.

Work Hours: Intern can work up to 24 hours per workweek during the academic year and up to 40 hours per workweek during breaks, (winter, spring, and summer). Hours can be scheduled to meet needs of the Department and intern. Normal business hours are Monday through Friday between 8 a.m. and 5 p.m.
