

it's COOL...

To recycle Used Oil and Oil Filters! Follow these easy suggestions:

it's COOL ...

To Recycle Used Oil and Used Oil Filters follow these easy suggestions:

1st first ...

Drain your motor oil into a drain pan. Clean up spills with an absorbent material such as cat litter or sawdust. DO NOT hose down your work area. Oil-soaked absorbent should be taken to the Yuba-Sutter Household Hazardous Waste Facility in a leak-proof bag or container.

2nd

second ...

Using a funnel, pour your used oil into the original container or reusable clean plastic container with a tight-fitting screw-top lid. Do not contaminate used motor oil with other hazardous fluids (when Used Oil becomes contaminated it cannot be recycled).

Place your used oil filters in a sealed, leak-proof plastic bag.

3rd

third...

Pack containers into a sturdy box for easy, safe transport to the recycling center. To prevent against leakage, wrap containers in newspaper or other recycled paper. Mark each container "Waste Oil."

and finally...

Hop in your car and drive to the used recycling center closest to you. Call first for hours and quantities accepted. Do not leave hazardous materials exposed to sunlight or stored overnight in your car.

Funded by a Grant from the California Integrated Waste Management Board. Additional funding provided by the Regional Waste Management Authority.

It is illegal to dispose of used oil by:

- * Dumping into street or storm drain
- * Pouring on the ground
- * Putting in the garbage
- * Burning

Disposal of used oil filters in garbage receptacles is also prohibited.
